

# BYTE®

**Our most compact headlamp.**

Don't be fooled by its size! Smaller and lighter than the Axis, Remix, Sync and Refuel, the Byte has always packed a powerful punch in a compact package. The Byte now features a new LED which generates 200 lumens on high making this the brightest 2AA light in the line. At only 64g this is the perfect backup light or sole source for the gram counters out there.

PN: BYT21-BK

## SPECS
