

**GVS UK Notification:**

**10/01/2023**

The GVS Elipse 'Gas Cartridge' and 'Combined Gas & Particulate cartridge' respirators and replacement filter kits before **01st December 2022** had an expiry date of 3 years from the date of manufacture. This is marked on each cartridge and the final product packaging.

This notification is confirmation that we are extending the expiry date of **all cartridges** within the Elipse product range **from 3 to 5 years**.

All cartridges produced before **01st December 2022** with 3 year expiry, can be extended to 5 years.

All cartridges produced after **01st December 2022** will have a 5 year expiry.

Note: Any cartridges made before **01st December 2022**, already increased to 5 years expiry **CAN NOT** be extended further.

Yours Sincerely
